

## FAIRVIEW HOSEGUARD SPIRAL WRAP (SPW)

Spiral wrap is a tough and flexible protective hose guard that is relatively easy to apply to any hose, electric wire, tube or bundle. Spiral wrap is effective anywhere where the hose might come into contact with daily-stressors (being dragged through job sites, attached to trucks, having weight put on top of them, or in environments where abrasion is likely to occur). Spiral-wrap has been demonstrated to increase the usable life of any hose.

Fairview's tough and flexible spiral wrap is available in lengths up to 100 FT.

Dispenser  
Carton

- **CONSTRUCTION:** Abrasion Resistant Polypropylene
- **COLOUR:** Black (Yellow; minimums apply)
- **TEMPERATURE:** -40°C + 140°C (-40°F + 284°F)
- **PACKAGING:** See below for standard dispenser carton lengths. 25 Ft. retail packaged lengths are also available from stock in sizes -6BLK to -16BLK (Suffix Part No. with -25P) and in a 10 Ft. retail package for size 32BLK (Suffix Part No. with -10P)

FAIRVIEW PART No.	INSIDE DIA (IN.)	WALL (IN.)	PITCH (IN.)	LENGTH (FT.)	SUGGESTED FIT (O.D. IN.)
